HARVARD MEDICAL SCHOOL

Dear Colleagues,

In today's healthcare environment, we are all facing mounting pressure to improve quality, safety, and efficiency. The key question becomes, "How do we accomplish this?" There are abundant challenges for clinical, administrative, and regulatory professionals, but evidence-based guidance to address these challenges in actual practice can be scant.

This immersive, two-day course focuses on the "how-to" elements of improvement work, including how to effectively translate successful quality and safety strategies, standards, and mandates into sustainable daily practice and operations. It is an opportunity to learn from and pose your questions directly to the leading experts in patient safety and healthcare quality improvement, and we encourage you to bring questions.

With increasing attention on how to deliver better healthcare, the need to bring successful strategies, evidence-based approaches, and tools for implementing change in both ambulatory and inpatient settings has never been greater.

We invite you to join us for this exciting and timely course. We look forward to meeting you soon.

Course Description

This special program provides quality, safety, healthcare, regulatory, and policy professionals with state-of-the-art strategies for quality, safety, and process improvement. It combines these strategies with industry updates, trends, and specific recommendations to translate concepts into daily practice in order to:

- Elevate the performance of inpatient and ambulatory activities
- Reduce preventable patient harm
- Improve patient outcomes
- Increase value in healthcare
- Remove waste from the delivery system
- Transform high-level recommendations and goals into everyday practice

The course consists of a mix of lectures, panel discussions, case presentations, and workshops. Small sessions foster a learning environment among presenters and attendees, encouraging best practice sharing and networking. Participants leave with examples of successful approaches and new ideas to implement successful change and improve the value of the care delivered in their own organizations.

Learning Objectives

Upon completion of this course, participants will be able to:

- Identify successful approaches for advancing quality, safety and efficiency and incorporate into practice as appropriate.
- Utilize process improvement tools to improve value and achieve the best clinical outcomes.
- Evolve the framework to support safety and quality improvement culture.
- Develop an infrastructure for population health, including through the use of primary care medical homes.
- Describe symptoms of opioid addiction and dependence and review approaches designed to reduce dependence.
- Mitigate patient safety risks by incorporating best practices around disclosure programs, decision support alerts, and safety reporting culture.

Accreditation

PHYSICIANS

The Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Harvard Medical School designates this live activity for a maximum of 10.75 *AMA PRA Category 1 Credits*[™]. Physicians should claim only credit commensurate with the extent of their participation in the activity.

RISK MANAGEMENT

This activity meets the criteria of the Massachusetts Board of Registration in Medicine for 9.75 credits of Risk Management Study. This includes .75 credits in Opioid Education and Pain Management Training and .75 credits in Electronic Health Records Training. Please check your individual state licensing board requirements before claiming these credits.

NURSES

Successful completion of this program will award 5.6 nursing contact hours for day 1, and 5.5 contact hours for day 2. Brigham and Women's Hospital is an Approved Provider of continuing nursing education by the Northeast Multistate Division, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

PHARMACISTS

American Health Resources, Inc. is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. Pharmacists can earn up to 10.50 Contact Hours (1.05 CEUs) of knowledge-based credit.

QUALITY AND SAFETY PROFESSIONALS

This activity meets the criteria of the Certification Board for Professionals in Patient Safety for up to 10.75 CPPS CE hours.

This program has been approved by the National Association for Healthcare Quality for 10.75 CPHQ continuing education hours.

CANADIAN ACCREDITATION

The Royal College of Physicians and Surgeons of Canada recognizes conferences and workshops held outside of Canada that are developed by a university, academy, hospital, specialty society or college as accredited group learning activities.

EUROPEAN ACCREDITATION

Through an agreement between the American Medical Association and the European Union of Medical Specialists, physicians may convert *AMA PRA Category 1 Credit*[™] to an equivalent number of European CME Credits[®] (ECMECs[®]). Information on the process of converting *AMA PRA Category 1 Credits*[™] to ECMECs[®] can be found at: www.eaccme.eu.

Course Directors

David W. Bates, MD, MSc

Chief, Division of General Internal Medicine and Primary Care, Brigham and Women's Hospital
Medical Director, Clinical and Quality Analysis, Partners HealthCare System, Inc.
Professor of Medicine, Harvard Medical School
Professor of Health Policy and Management, Harvard T.H. Chan School of Public Health

Dr. Bates is an internationally renowned expert in patient safety, using information technology to improve care, quality-of-care, cost-effectiveness, and outcomes assessment in medical practice. He is a Professor of Medicine at Harvard Medical School, and a Professor of Health Policy and Management at the Harvard T.H. Chan School of Public Health, where he co-directs the Program in Clinical Effectiveness. He directs the Center for Patient Safety Research and Practice at Brigham and Women's Hospital. He served as external program lead for research in the World Health Organization's Global Alliance for Patient Safety and is the immediate past president of the International Society for Quality in Healthcare (ISQua) and the editor of the *Journal of Patient Safety*. He has been elected to the Institute of Medicine, the American Society for Clinical Investigation, the Association of American Physicians and the American College of Medical Informatics, and was chairman of the Board of the American Medical Informatics Association. He has published over 700 peer-reviewed papers and has an h-index of 115, which ranks him among the 400 most cited biomedical researchers of any type.

Allen B. Kachalia, MD, JD

Chief Quality Officer and Vice President for Quality and Safety, Brigham Health
Associate Professor of Medicine, Harvard Medical School

Dr. Kachalia oversees inpatient and ambulatory quality initiatives at Brigham and Women's Hospital. He is a general internist and practices as an academic hospitalist on the hospital wards with medical students and residents. Dr. Kachalia is also Associate Professor of Medicine at Harvard Medical School. His research focuses on how the law affects medical care—particularly how liability system reform and the disclosure of medical error relate to the quality and safety of healthcare.
